While "**the First World War**" is going on with all violence, cruelty, enmity and hatred among people in the European nation .

In addition to this painful torment that Europe suffered from, there was the plight of "**the Spanish influenza virus**", which circulated widely: this virus had spread from one army camp to another and from state to state, that led to the doom of more than fifty million people.

Moreover, oppression and revenge inflamed again with the birth of "**the Second World War**" among people of the same nation, the war began with the fiercest destruction of tens of millions of European people deliberately and premeditated.

No doubt, the war left behind it tens of millions of orphans, widows, the wounded and those with permanent disabilities.

In the time that war destructed brothers and sisters and led to their doom, there was on the other side a wisdom and mercy that distinguished the excellent scientist Professor "**Dr. Charles Juniper**", who we knew about from a reverent presentation by Prof. "**Dr. Abdel Halim Mahmoud**", "**the Grand Imam of Al-Azhar Mosque**", who says that "**Juniper**" is a professor of Christianity and the head of the religion department at the University of Paris in the French

capital. He added also that "**Juniper**" is a "**Catholic Christian**" who was brought up on the Christian rules since his childhood, and both of his parents are "**Catholic Christians**", besides his French family that is "**Catholic**" and very fanatic of the Christian religion.

"**Dr. Abdel Halim**" also says that Professor "**Juniper**" is the founder of the field that specialized in Christian affairs and one of the pioneers in discussing the Christian issues passionately.

He was interested in searching and investigating the depth of every new matter that deals with Christianity from its birth two thousand years ago until now .

And for the sake of that academic brilliance, "**Dr. Juniper**" did not hesitate to study "**the Latin language**" and also study "**the Hebrew language**", in implementation and application of accurate scientific research and the summit in perfection, as he went to the "**city of Jerusalem**"

where the birthplace of "**Christ Jesus**", peace be upon him, whom God sent to "**tribe of Israel**".

Thus, "**Dr. Juniper**", a professor of Christianity, has laid down the rules, conditions, restrictions, and reasons for success in searching for the truth at the top of the degrees of subspecialty as follows :

## **"First"**

**God is the only Almighty who sends all of His messengers, may blessings and peace be upon them**

## **"Secondly"**

**Jesus Christ, may blessings and peace be upon him, is the Messenger whom God sent carrying his message.**

## **"Third"**

**Israel tribes are the people for whom God sent Jesus, peace be upon him, as mentioned in the Gospel of Matthew that God send Jesus to the disobedient of the Israel tribe.**

## **"Fourthly"**

**The single language is the same language of the Messenger"**

**Jesus", may blessings and peace be upon him, and the language of the Israel tribe for whom he was sent.**

### **"Fifthly"**

**The geographical area for communicating the message of the messenger who is sent, Jesus the Christ, may blessings and peace be upon him, to the Israel tribe is sent in the same region, which is the city of Jerusalem.**

**"Dr. Juniper"** discovered clearly that Jesus- the Christ, peace be upon him, used to say about himself that he was:

**" servant of God -Abdullah"**

and used to repeat his word frequently that he was:

**" servant of God -Abdullah."**

Thus, the French researcher who has the top specialization in Christianity did not stop at this discovery, but because he is the faithful advisor to the people of the European nation .

So, "**Dr. Juniper**" followed the origin of the word "**servant of God -Abdullah**" that was said and repeated by "**Jesus- the Christ**", may blessings and peace be upon him, until he discovered the reason for misleading the truth that was

lost due to "**a serious error**" in the "**Greek translation**" made by "**St. Paul**", the son of "**the apostle Barnabas**"' sister.

Although "**Dr. Juniper**" praises "**Saint Paul**" and, who went to Greece to preach the Messiah, may peace and blessings be upon him, but he clashed with the problem of translating the word of Jesus, that he is "**servant of God - Abdullah**" into "**the Greek language**", which is not the

language of Jesus, by which he  
was **"sent to" "the Israel tribe"**,

**where the translation carried  
two meanings:**

**The first meaning is:**

**"The Child Of God"**

**The second meaning is:**

**"The Servant Of God"**

and **"Dr. Juniper"** says if **"St. Paul"** chose the translation **"servant of God"** then the description of our master Christ is that he is **"servant of God"** but he chose **"the wrong translation"**, which is **"the child of God"** and it became the description of our master Christ. He is **"the child of God"**.

Thus, because of this **"gravely wrong translation"**, we can find **"the pagan Greek climate"** at that time and also we can find **"the pagan environment"** to deviate from:

**"The child of God"**

to:

**"The son of God"**

From about two thousand years ago, when the people of "**the Hebrew language**" say that this "**translation**" is "**an obscene linguistic error**", and this "**false translation**" mentioned in his academic book, which is taught at the university, which is "**Christianity in its inception and development**" by "**Dr. Charles Juniper**".

so, It is the greatest defense of Jesus, peace be upon him, who said much about himself that he is:

**"servant of God -Abdullah".**

Thus Jesus may God bless him and grant him peace, will be like all the messengers of God who are sent to deliver the message of God which is :

**No God except Allah**

لا إله إلا الله
